Extra tips to pull it together

Designer secrets.....	14
Our warmest congratulations.....	15

Creating the nursery of your dreams

When you register your dream nursery with Bratt Decor, it's like getting your very own personal assistant. Our design experts are available to help you choose just the right items and can assist with your registry announcements. Once you register, you can choose the template style that you love

most, print them out and include them in your traditional shower invites. These well appointed communiqués will tell your loved ones exactly what's on your Bratt Decor wish list and where to get it. Email our style coordinators at customerservice@brattdecor to place your order.

The crib

The crib is the centerpiece of your nursery and seriously defines the space. Bratt Decor offers a beautiful collection of the finest cribs, so take your time and decide which one is right for you. We have designs in both wood and iron, and every crib transitions in some fashion to extend its usage and offer greater value.

We've been making gorgeous cribs since 1995 when owners Stephen & Mary Bauer built the very first Bratt crib for their baby. Everything we do is our very best, so relax and know that any crib you choose with us is outstanding.

The dresser & changing table

This is a must have piece for every nursery but you won't be changing diapers forever, so think about your needs as your child grows. You want to find something that allows you to maximize usage and looks stylish in the process. All of our

dressers double as a changing table by simply adding the very affordable change tray. Each tray comes complete with anti-tip hardware, a water-resistant changing pad and a beautiful terry cloth fitted sheet.

The cradle

This piece is perfect for keeping baby close during those first precious months. What we love about the cradle is you can always have a safe and fabulous place for sleeping baby at just an arm's length away. Plus, you can easily move it from room to room.

Some of our cradles, such as the Chelsea Cradle (shown), feature a hidden stopper that allows you quickly switch from rocker mode to stillness. Every cradle comes with a water-resistant changing pad.

Beautiful bedding for baby

We have an exquisite collection of baby bedding for you to consider. We offer luxurious fabrics that range from silks to seersucker. These fabulous designs and styles look amazing with our beautiful cribs and truly speak to the sophisticated

pallet. You can buy bedding a la carte or in complete sets. Custom designs are also available, so if you'd like something you do not see on our site, email us at design@brattdecor.com and we'll make your bedding dreams come true.

Additional storage

Saving space is easy when you have a plethora of stunning armoires, bookcases and night stands to choose from. Our armoires can be used for everything; from another closet, to a shelving unit or even a discreet entertainment center as your child grows!

We include tip resistance kits with all of our tall furniture to help keep baby safe. It's just what the doctor ordered to help you store all those wonderful little baby things.

Luxury mattresses

It may not be the most glamorous piece in your nursery, but an important item to be sure. Bratt Decor offers three great styles: fresh, pure and luxe for standard mattresses, and a luxury oval mattress for our oval sleep systems. Every mattress

is designed exclusively for us and fits perfectly in our cribs. Each design offers top notch quality so review the features of each and choose the one that works for you.

Lighting

There's a reason it's called mood lighting. Lighting is an essential element to any room and the right choice can enhance the design direction you are trying to achieve. If you opt for one of our incredible chandeliers, be sure to have it installed with a dimmer if possible. You can keep light low when baby is sleeping, or brighten the room when it's time to play!

We have a lot of great options, in a variety of price points, so have fun and add a marvelous light to your baby's nursery.

The little comfy chair

It's hard to imagine that the little one kicking around in your tummy will soon be here and walking, but it's true. We've added some really adorable child size chairs to complete your nursery. If you have an older child, this will give him an

open invitation to sit and sing to his newborn baby brother or sister. Most of our chairs come in a variety of fabric choices and have the option to be customized.

The big comfy chair

This one is all for you. Here is where you will wile away those long nights, feeding, rocking and falling in love. We have several sophisticated options that will look splendid in your nursery or living room.

Many of our chairs come with an accompanying ottoman that will allow you to put your feet up and savor those precious moments. You can also contact us for custom chair fabrics through our free design consultations. Email us at design@brattdecor.com to discuss other options for any of our chairs.

Rugs

Rugs help minimize noise and create a comfortable space for crawling babes. They can also add serious design style to your room by adding bursts of color or texture. We offer a variety of rugs that are made using only the finest materials

and craftsmanship to ensure long lasting wear. As always, if you do not see the size or style you're looking for, email us at design@brattdecor.com and we can work with you individually to find exactly what you are looking for.

Designer secrets for your nursery

Once the main furniture items are taken care of, bring your nursery to life by carefully considering all of the little details. Wall and window treatments are essential elements that make a big statement.

Make sure the paint color, texture or prints used harmonize with the look you want to achieve. Add some personality to your baby's nursery with artwork, books and toys. A perfectly placed plush can really help bring a room together.

Our Warmest Congratulations

Planning a nursery is one of the greatest things you get to do while waiting for your little one to come. This company was founded on furniture we created for our own children and I'm delighted you've chosen Bratt Decor to be a part of this process with you. I remember designing the nursery space for our first baby, Sebastian. Looking back, I can recall so vividly the thrill and anticipation that washed over me. It was magic. We've spared no expense, and have taken no short cuts. You can rest assured that everything we offer is outstanding.

We wish you love, joy, peace and our warmest congratulations.
